

Scripture's Weight of Evidence

Today, more than ever before, our loving Father's true believers are called upon to compare each doctrine to the Scriptural standard. He has promised He will lead those who seek with all their hearts, into the fullness of truth. All are held accountable to Berean model, to "study the Scriptures daily to see if these things are so." This means being willing to first *hear the message*, and secondly to *compare it* with the rock solid Scriptural evidence. After all the evidence is gathered for or against a subject, it must be decided upon which side lay the *weight of evidence*.

In the mid-14th Century, John Wycliffe, *the morning star of the Reformation*, stood in the gap for truth. He believed truth must be firmly founded on the *Rock* of Scripture. In meeting the opposition of his day, he coined the phrase "Sola Scriptura," meaning that all doctrine must be based on Scripture alone. The Father's ordained standard for all law, as well as all units of time reckoning, receives its foundation in the shamayim (*heavens*), yet recorded by men chosen by Yahuah and collected within the pages of Scripture. There alone, has it been preserved and protected by an unseen hand, but only in the original Hebrew text. The promise of the Savior that "*not one jot or one tittle shall be removed from the law until all be fulfilled*," was specifying only the Hebrew text and not the erroneous translations that have created chaos and confusion within the intended word of Yahuah.

Scripture's Weight of Evidence

There are no less than thirteen principles from Scripture which reveal that the Creator's time keeping is based on the harmoniously appointed principles of the sun, moon and stars working together with precision as ordained at creation (Genesis 1:14-18). The current Roman Gregorian calendar, which utilizes the successive weekly cycle, is reckoned solely by the *sun*, in direct defiance of the Creator's appointed three part celestial system. This artificial time keeping system was intended for the worship of the planetary gods, and was also the foundation of "sun worship" in antiquity.

The sun, moon and stars orbits along with the New Moon beacon have continued with the precision of a Swiss clock, untouched, unaltered, and unmoved by man or beast since the

first week of creation. However, the role appointed for the moon and the stars for time-keeping have been hidden under a dark shroud of deceit for 1700 years. Only now these truths are coming to light.

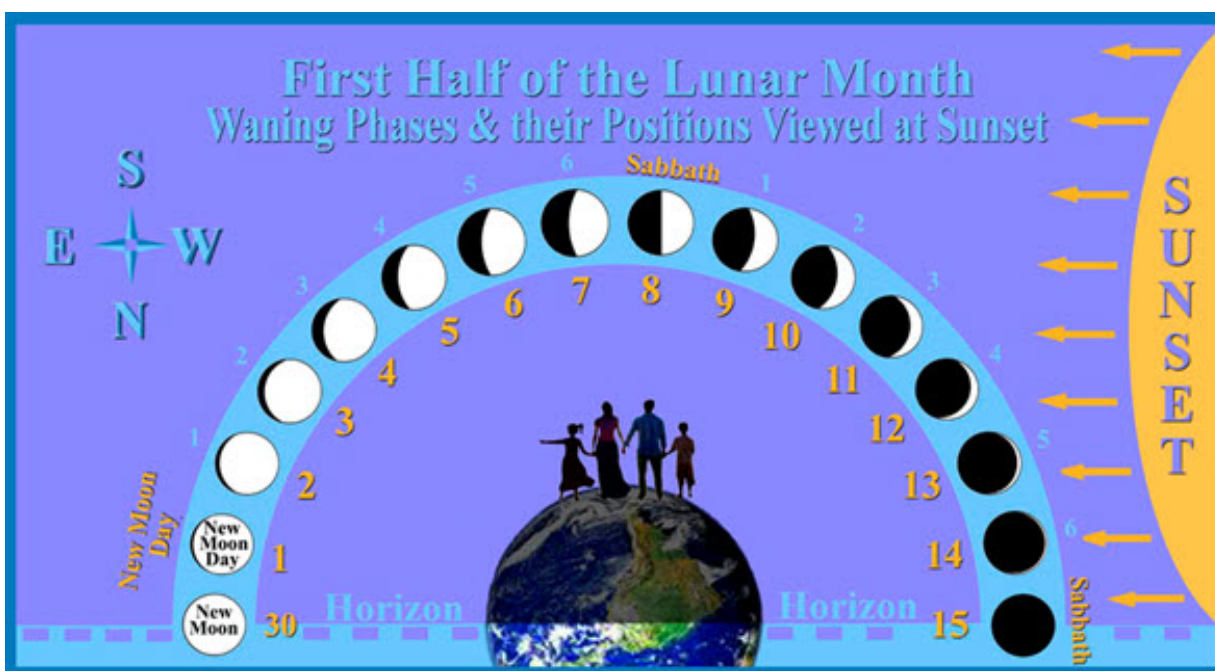

While this is true, in opposition to Evolution's pompous theory, it is these *heralds of truth* from antiquity, remaining visibly observable to all upon earth, that gallantly declare that the Messiah and Savior, Yahusha is the Son of Yahuah and Creator of the Universe. It is the sun, moon and stars that declare a literal six days of creation and a seventh-day Sabbath, as it is still a living witness, testifying of the Creator to this day. No such Scriptural evidence for the *unbroken-chain-of-successive-weeks* continuing since Creation can be produced, demonstrated, or be visibly observable in the shamayim, or accounted for astronomically. Amazingly, there are many who declare the very fact the week is disconnected from the celestial bodies, is in itself the sign of a seven day creation. Yet, if we look a little closer we discover, that the Creator ordained the astronomical sun, moon and stars for all units of time (Genesis 1:14-18). Thus, the modern unbroken cycling week is a true orphan, as it was not ordained by the Creator at all, but bears the signs of a *witty invention of man*.

Simply no one on earth today was a living witness of Creation. And Scripture remains silent as to an unbroken continuous weekly appointed at creation. All we are left with is *an assumption* that the weekly cycle, as demonstrated in the Roman Gregorian calendar, has been consistent since that first week.

In contrast to this assumption, Yahuah states that "*the moon is the trustworthy witness in the sky.*" So what does it testify to? It testifies that Yahuah Alahim is the Creator because its lunar rotations and lunar phases remain unchanged after 6000 years. And it testifies to the creator because the *full* New Moon is the only locator that can consistently place the holy appointed Feast of Unleavened Bread and Feast of Tabernacles, or true lunar Sabbaths. Our Savior's death highlighted this fact, as it was not by coincidence that the Sabbath He spent in the tomb was the first day of the Feast of Unleavened Bread. See example below of the astro-luni-solar timepiece as it continues to be seen in the shamayim as a banner ever waving to declare the Creation, Salvation, and Redemption story:

It will be established forever like the moon, the trustworthy witness in the sky. Psalms 89:37

Note: This illustration is from the perspective of the Northern Hemisphere so you will need to orient yourself facing south.

And when the debate is, they shall stand in my (*hemispherical*) domes, and shall consider and believe my laws; and they shall keep my commandments in all my solemnities, and they shall hallow my Sabbaths. Ezekiel 44:24
Wycliffe Bible of 1382

Three Months in a Row, The Exodus, the Manna and the Mountain

The story of the *manna* reveals that -- while Sunday is not the seventh-day Sabbath, neither is Saturday. Everyone knows that the Gregorian calendar will never have more than two identical sequential months in a row. The only time it can occur is on a leap year. Amazing though it may be, Exodus 12, 16, and 19 outlines not just two, but three identical, sequential months in a row. The *full* New Moon refreshes the cycle of four lunar weeks and their respective Sabbaths, each and every month. Scripture simply does not recognize any form of calendar other than lunisolar. Therefore, the unbroken continuous weekly cycle is not supported in Scripture.

But this phenomena did not occur for only “three months in a row,” but for every month during the forty years in the wilderness as recorded in Joshua 5:10-12.

Forty years after the first manna was given in the wilderness, it ended. That day was the 16th day of the first month of Abib, the day after the Sabbath. In this way highlighting that all these years later it was still in sync with the lunar cycle of time, with the Sabbaths continuing to fall on the 8th, 15th, 22nd and 29th of each month.

Refer to full article, ["Three Months in a Row, the Exodus, the Manna and the Mountain."](#)

The Time Frame Between Passover and Tabernacles

Scripture's calendation model is the Creator's ordained standard for all calendation and units of time. Whether or not one keeps the sacred appointed Feast Days or not is

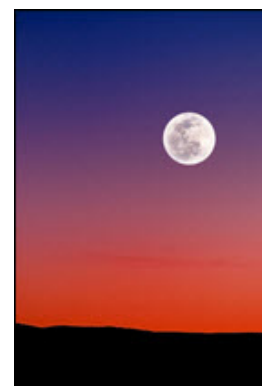

irrelevant to the part they play in defining the true calendar of Scripture. The Sabbath days from the spring Festival to the fall Festival expose weighty evidence that *unbroken cycles-of-successive-weeks* have not existed since creation. The reason is Leviticus 23 clarifies a fact that both the spring Feast of Unleavened Bread and the fall Feast of Tabernacles are both seventh day Sabbaths each and every year. Yet, using a Gregorian calendar with its cycling weeks and

Saturdays, one is not able to harmonize these two dates to both occur on Saturdays. Amazing evidence reveals that this *unbroken-cycle-of-weeks* cannot stay in harmony with Scripture for 6000 years, six months or six weeks, for the very reason the New Moon exists, as it refreshes the cycle each month. Refer to full article, ["Passover to Tabernacles Calendar Challenge."](#)

The Value Scripture Places on Full New Moons

The term New Moon (according to Strong's Concordance: Chodesh #2320, #3394, #3842, #7720, #4582, #3391, #3376) is given approximately 300 times between Genesis and Revelation as compared to the seventh-day Sabbath, which is given approximately 150 times. According to Scripture, among all the lunar phases, this *full* New Moon is the most significant lunar phase. This phase working in partnership with the sun, is one of Yahuah's time principles that rules in the shamayim. This is because it beacons that the new month begins the next morning at sunrise; it establishes the layout of four weeks of six literal days followed by a seventh-day Sabbath with predetermined lunar calendar dates for each month. Also, the New Moon defines the first day of each year, as it is always located on the first day of spring.

It is the sighting of the *full* New Moon that tells us not only that the next day is New Moon day, but it is by counting from New Moon day that each *date* receives its placement. Each month, the 2nd of the month is always the first day of the first week, while the 8th of the month is always a seventh-day Sabbath, which is followed by three more successive weeks. Therefore, it is only by counting from the New Moon that Yahuah's true seventh-day Sabbath is found. The Creator's *lunar month* and its four corresponding weeks has been the ongoing target of Lucifer's unending attacks. For if the real truth were leaked out regarding the importance Yahuah places on the New Moon, Lucifer's mask would fall off, exposing him and his mastermind of deception, the Roman Gregorian calendar and its *unbroken-cycle-of-weeks*. Refer to full article, ["Scripture's New Moon Principles."](#)

Sabbath's Consistent Monthly Dates

Scripture's time-keeping and calendation is the standard whereby we are to compare each calendar including the Roman Gregorian, and not the other way around. Every instance where dates are used in Scripture to identify Sabbaths, they are without exception located on the 8th, 15th, 22nd, and 29th of the month. It was the Temple/Sanctuary services that protected the true *astro-luni-solar* calendar among the Israelites.

If the modern Gregorian calendar were in harmony with Scripture it would reflect all units of time as beacons from the Creator's celestial timepiece. If it were, every month would begin with the New Moon day followed by four successive weeks and Sabbaths. Each month would look the same as the last, and the cycle of weeks would begin afresh each month. The only difference from one lunar month to another is that half of the months of each astro-luni-solar year are 29 days in length and half are 30. But this has no effect whatever on the layout of the weeks.

The truth is the modern Gregorian calendar can never have more than two identical months in a row. This is because its months are of various lengths, and it adheres to a system of *unbroken weekly cycles*. As stated earlier, this is only possible with a astro-luni-solar calendar because the New Moon refreshes not only the cycle of days each lunation, but it also refreshes the cycle of weeks. Refer to full article, ["Sabbath's Consistent Monthly Dates."](#)

Three Kinds of Days Each Month

Perhaps it is because Genesis 1 defines that there is only two kinds of days within a week, work days and Sabbaths, it has been assumed that weeks cycle without end. But profound evidence is revealed within the same Scriptures that weekly cycles are broken each and every month with the occurrence of New Moon day, a third kind of day that exists each lunar month. From cover to cover the Scriptures illustrate that "months" are lunar and beacons by the New Moon. Therefore, all Scriptural months contain three kinds of days and not just two as defined in Ezekiel 46:1.

Three Kinds of Days Each Month

Thus declares Yahuah Alahim, “THE GATE of the inner courtyard facing the **east**, is caused to be shut six *daylights* for work, but on the Sabbath daylight it is thrown open, and on the New Moon *daylight* it is thrown open. Ezekiel 46:1

Here in the book of Ezekiel we find a “thus says Yahuah” that He ordained *three kinds of days* each month, which are named and have a specific function. Notice below that the East Gate of the temple being opened or closed *for worship* actually defines that these days can never overlap, similar to a traffic signal. New Moon days and Sabbaths are both identified as worship days in contrast to work days. Each day is either a work day or a worship day and can never be both.

- 1) East Gate is **SHUT** six working days.
- 2) East Gate is **OPEN** on Sabbath days.
- 3) East Gate is **OPEN** on New Moon days.

Facts from Ezekiel 46:1

1. Genesis correctly reveals that **two kinds of days** make up the Scriptural week – work days and Sabbaths.
2. But Ezekiel 46:1, Leviticus 23:1-44, and Isaiah 66:23 identify that **three kinds of days** make up a Scriptural month – 1) Six work days; 2) Sabbaths; 3) New Moon days.
3. The East Gate is **opened** for worship on both New Moon days and Sabbaths.
4. The East Gate is **shut** on work days, signaling that these are not worship days.
5. Sabbath days and work days never overlap.
6. New Moon days and work days never overlap.
7. New Moon days can never be seventh-day Sabbaths because they are always the first day of the month and are not part of the week cycle or a seventh-day.
8. However, by its very existence, the New Moon day breaks the cycle of work days and Sabbath days each lunar month of 29 or 30 days.
9. It is impossible for the Creator’s weeks to have cycled without end since creation for the mere fact that there are three kinds of days each month and not just two, as all the world has “wondered after the beast” in believing.
10. Cycling weeks cannot remain unbroken for 6,000 years, 6 months, or 6 weeks, for the very reason that the New Moon day exists as a third kind of day.
11. **Any week that is entirely severed from the three part orchestration of the sun, moon, and stars can neither stand as their ambassador nor as the sign of the Creator of the shamayim.**

All of Yahuah’s units of time and sacred days are heralded by His LIGHTS, the *grand time principles ruled by the shamayim*. His true seventh-day Sabbath is born of this celestial timepiece, as it alone bares the *signature of the Creator*.

The Twelve Criteria of the True Crucifixion Date

There are *twelve criteria* that illustrate point by point the time centric details of Scripture’s calendation at the time of the crucifixion of the Savior. Yahusha, as the *lamb of Yahuah*, fulfilled the Passover sacrifice, both as to the event and to the “time.” Each of the twelve elements of time surrounding the details of the crucifixion of the Messiah, declare three things. First and foremost that He was the true Messiah, the Passover lamb who takes

away the sin of the world. Second, they declare the Scripture's astro-luni-solar calendar to be the self-same as ordained at Creation, the Exodus, and the Cross, laying the foundation upon which all prophetic events will be fulfilled leading up to His Second Coming. Thirdly, these twelve elements of time declare the seventh-day Sabbaths can only be found by counting from the *full* New Moon day, identifying the seventh-day Sabbaths to be lunar.

Solar Eclipse from the Sixth to the Ninth Hour

The prophet Amos foretold 800 years prior to the Messiah's death in Amos 8:9-10, that *"the sun would be darkened at noon,"* and great mourning would occur, as for the only begotten son, on that sacred feast day. This is recorded as a fulfillment of this ancient prophecy by Matthew 27:45, Mark 15:33, and Luke 23:44-45, clarifying that *"there was darkness over all the land from the sixth to the ninth hour."* However, Luke goes on to

elaborate in verse 45, clarifying that it was not mere darkness, but rather it was *"the sun that was darkened."* (The Textus Receptus used the Greek term "skotos" (Strong's # 1587), while the Codes Sinaiticus utilized the term "ekleipo," from which we get the word eclipse.

Additional witnesses of the day, support a solar eclipse with no great surprise, outside of its duration. The only recorded perceived miracle in this solar eclipse was regarding its length of three hours. This was completely unheard of as most solar or lunar eclipses only last a few minutes.

The great significance of this *solar eclipse*, is that it can only occur when the lunar phase on that day is the dark conjunction phase, and not the full moon as the modern Jews would have us believe. Also, there is no possible way to construe this phenomenon to be a lunar eclipse, as these can only occur at night.

Indeed, a miracle of grand proportions occurred on the day of the crucifixion, along with the earthquake and the veil in the temple being torn in two, but it was not a solar eclipse occurring, as some would have us believe, during a "full moon." The three gospel writers, being familiar with the movements of the shamayim, would have recorded that as significant if such a bazaar thing like it had occurred, as this would have meant Yahuah would have moved the moon 180 degrees from its position to accomplish it. But, there is no record of such an occurrence.

Another important witness of this event, whose name is recorded in Acts 17:34, is Dionysius the Areopagite, a Greek astronomer. He vouches that this was a solar eclipse unlike any other. He stating, *"Either the Creator of all the world now suffers, or this visible world is coming to an end."* Refer to Scripture study of Luke 23, ["The Sun was Darkened from the Sixth to the Ninth Hour."](#) Also Scripture study of Amos 8, ["O.T. Prophecy of a Solar Eclipse to Occur at the Messiah's Death."](#)

The Pure Woman of Revelation 12:1

For centuries it has been taught that the year begins in January, months are of various lengths according to the whim of Caesar, days are marked accordingly beginning at either midnight or sunset, and weeks have cycled without end since Creation.

It is taught as fact that the cycling week, which has NO association whatever with the celestial bodies, is the very symbol of the creation of the sun, moon, and stars, which were divinely ordained as the beacons of time during the first week of creation. But the question remains, where is it written in Scripture that an *unbroken-chain-of-weeks* was designated as His symbol of Creation?

In contrast, Scripture reveals that at the very end of time Yahuah's true and obedient believers will be symbolized by the revolving celestial bodies that beacon His true astro-luni-solar calendar. This unique time system is based upon the co-operative efforts of each of the sun, moon, and stars, as beacons by the *full* New Moon.

This is strikingly illustrated by the pure woman of Revelation 12:1. She is clothed with the sun and the moon is depicted as under her feet, and there are twelve stars or starry constellations above her head. These celestial symbols illustrate her perpetual obedience to the Creator and His true ordained clock/calendar and sacred days as determined in the shamayim. Each of the sun, moon and stars specifically represent aspects of the Creator's unique time system, each of which cannot be identified using the Roman time system for days, weeks, months or years.

It has been discovered that in the Northern Hemisphere there is only one lunar phase that is ever under the feet of the constellation Virgo. She first appears in the eastern sky at sunset in the spring. But one night only it is the "full" New Moon that appears under her feet. Because the passage describes Virgo as being clothed with the sun, it is easy to see that the moon under her feet will rise the same night fully clothed in the same light of the sun. What is profoundly portrayed is that New Year's Eve, as well as each month, are not found by the dark conjunction or the crescent lunar phases, but by the "full moon," alone, identifying the "full moon" is the true New Moon of Scripture.

As Virgo arises in the spring she holds in her left hand a sheaf of barley, signifying the ordained time of her arising in time for the Passover and First Fruits Offering. Yet, too in her left hand she bares a palm frond, symbolic of her setting in the fall at the time of the fall feasts.

In contrast, the wicked woman of Revelation 17, who rides the beast with seven heads, represents the opposing calendation system. Is it possible that these seven heads or mountains, are mountains of a counterfeit time system, representative of *unbroken-cycles-of-weeks*, and named after seven pagan deities? Which woman defines your current time-centric belief system? Refer to article, "[*A Great Sign Appeared in the Shamayim.*](#)"

Fourteen Scripture Studies Supporting the Full New Moon

Presented below are thirteen diverse and weighty presentations supporting a *full* New Moon. Each should be **read in their order** as they build upon one another, revealing weighty evidence. I have kept these Scripture studies short for readability. Simply click on each link.

Additional Scriptural Support for the “Full” New Moon

Presented below is a growing list of diverse Scriptural supportive confirmations for the Full New Moon. Each of the following studies are outlined in their order, as they build upon one another. Simply click on each link below.

1. [Luke 23:44-45](#) – **The Sun was Darkened From the Sixth to the Ninth Hour.** According to Luke, a *solar eclipse* occurred on the day of the Messiah’s crucifixion between the sixth and the ninth hour. This was a fulfillment of the prophecy of Amos. This can only happen during the *dark conjunction* lunar phase, revealing the true New Moon is the *full moon*.
2. [Amos 8:9-11](#) - **Amos Prophesied a Darkened Sun to Occur at the Messiah’s Death.** This O.T. prophecy given 800 years prior to the crucifixion declares a *solar eclipse* was to occur at noon on the day of the Messiah’s death. Three gospels confirm this as fact. A *solar eclipse* occurs only at the time of a dark occulted lunar phase. So by extension, the evidence supports the *full moon* as the true New Moon
3. [Matthew 24:27](#) - **All Ruling Luminaries Shine from the East unto the West.** Each heavenly luminary shines from east to west when it is both visible and ruling time. The only lunar phase that does this is the *full moon*, making it the true new moon of Scripture and the Temple services.
4. [Revelation 22:2](#) – **The Tree of Life is Regulated by the New Moon.** Did you know there is a moon in the shamayim? The tree of life yields twelve fruit, one each *month* according to the measure of the *New Moon*.
5. [Revelation 21:21](#) – **Twelve Gates are Twelve Pearls.** The twelve gates of the New Jerusalem are twelve whole, individual pearls, representing twelve “full” New Moons.
6. [Revelation 12:1](#) – **A Great Sign Appeared in the Shamayim Announcing New Year’s Day.** Discover that the great sign in the shamayim of the woman clothed with the sun, depicts a *full moon* (#4582 *Selene*= *brilliant moon*) under her feet, with twelve constellations symbolized above her head. Remarkably, this image is revealed in the shamayim one time each year, occurring only on New Year’s Eve in the spring in both the northern and southern hemispheres.

7. [Psalms 81:3](#) – **Blow the New Moon Shofar on the Full Moon.** Blow the *New Moon shofar* on the “full moon,” the processor of time for all the holy Feasts (chag).
8. [James 1:17-18](#) - **Yahuah is the Father of Lights.** Discover which lunar phase is the only lunar phase that can represent the FATHER OF LIGHTS with no visible shadow from its turning orbit.
9. [Psalms 89:35-37](#) – **The Full Moon is “First” Among the Lunar Phases.** This study reveals that the *full moon* is FIRST among the lunar phases and is set apart for sacred use in the appointed times of the Temple services. As a result of this new light the call can be heard: “Babylon is fallen, is fallen . . . come out of her my people, lest you share in her sins, and lest you receive of her plagues.”
10. [Genesis 15:12, 17](#) - **The Night was Dark 430 Years Prior to the Exodus to the Very Day.** Yahuah’s Covenant with Abraham was made on a night identified as DARK. This *dark night* is the foundation for identifying the correct time of the month for Israel’s miraculous Exodus from Egypt 430 years later to the very day, and by implication, the true New Moon.

Healing on the Sabbath

In the verse below Yahusha responds to the priests, who are angry because He has just healed a man on the seventh-day Sabbath, the day after the last day of the Feast of Tabernacles.

Moses therefore gave you circumcision (not that it is from Moses, but from the fathers), and you circumcise a man on the Sabbath. If a man [male] receives circumcision on the Sabbath, so that the law of Moses should not be broken, are you angry with Me because I made a man [male] completely well on the Sabbath? John 7:21-24 NKJV

It is in these words of the Savior we find the day that followed the seven day *Feast of Tabernacles* was the seventh-day Sabbath. This evidence bears a second witness to Leviticus 23:35-36 a full 1500 years after the Exodus that indeed the day following the seven day feast is always a seventh-day Sabbath, and the 22nd day of the Seventh Month. Thus it is demonstrated yet again, that the Sabbath consistently falls on the 8th, 15th, 22nd, and 29th of the seventh month. Refer to article, [“Sabbath’s Consistent Monthly Dates.”](#)

On the first day there shall be a sacred convocation [seventh-day Sabbath]. You shall do no customary work on it. For seven days you shall offer an offering made by fire to Yahuah. On the eighth day you shall have a sacred convocation [seventh-day Sabbath], and you shall offer an offering

made by fire to Yahuah. It is a sacred assembly, and you shall do no customary work on it. Leviticus 23:35-36 NKJV

Following the Lamb Whithersoever He Goes – Appointed Feasts

According to Revelation 14:4, *following the lamb whithersoever He goes*, is a manifestation of only one group of people on earth at the very end of time. This group is referred to as the 144,000. While it is well known among various Scripture believing organizations that the Lamb is a symbol of our Messiah, and Savior, Yahusha, it is not overtly clear to most, what is meant by *following the Lamb whithersoever He goes*.

This is a divine riddle that can only be understood in light of the sacred Sanctuary service model as instituted by the loving Father in its complete form for Moses and the Israelites in combination with His *astro-luni-solar* calendar.

This *time-centric* ceremonial system has prophetic implications, revealing in detail through its daily, weekly, monthly and yearly services of the Creator's divine plan of salvation. These truths are magnified further, as they are revealed in His sacred *time centric* seventh-day Sabbath, and the other six yearly appointed sacred feasts days. It is these appointed holy feasts, both weekly and yearly, that reveal to mankind the time appointed work of the lamb, and His blood transferred to the Most Sacred Place in the Sanctuary above on behalf of humbly confessing sinners.

It is the celestial calendar that defines the divinely methodical seven-phase system of the Messiah, unto salvation. It is only in this paradigm that it can be understood that Yahusha is the Lamb slain from the foundation of the world, yet is alive and well today making restitution for sin and walking among the candlesticks in the shamayim sanctuary. While He lives as our High Koehn (*Priest*) in the Sanctuary above, it is His own symbolic blood, shed once, that He presents before His Father.

Prior to His return, He will take on the role of High Koehn in Judgment for Day of Atonement in the Most Sacred Place. Here He cleanses Yahuah's Seat of Forgiveness of the sins of all mankind, since the Garden of Eden, by removing it from the premises and placing it on a goat, representing Satan, led far away. Those who have humbly confessed will be forgiven and counted righteous, and those who have not will remain unforgiven and will lose out on the free gift of Salvation.

Soon thereafter, our Savior will be seen returning in the clouds the shamayim to receive His redeemed from all the ages. All of this was according to the pattern shown to Moses on the Mountain, not made with hands.

Each ministry phase of our Savior has its ordained and appointed event, occurring precisely on time and in orchestration with Scriptures *astro-luni-solar calendar* and His divinely appointed feast days. Those who are *following the Lamb* are those who diligently seek to be in harmony and participate with these sacred shamayim events. By observing His sacred appointed *fixed* feast days at their ordained times, as beacons by the *full* New

Moon. It is in this way they declare to Yahuah, their loving obedience. Is it any doubt, this is impossible to do while *wondering after the beast and her Gregorian calendar*?

These are they which follow the Lamb whithersoever he goes. These were redeemed from among men, being the first fruits unto and to the Lamb. Revelation 14:4

It is a well established fact that the Sanctuary services in the wilderness corresponded to the *astro-luni-solar* calendar. But so too did Solomon's Temple, as well as Herod's Temple. Many have proclaimed that this ordained time-keeping ended either at the cross or when the earthly Temple was destroyed in A.D. 70. But, is it not true that both the Sanctuary and Temple on earth were patterned after the shamayim in every aspect including the appointed time system for New Moons and feasts? Yes! Is the shamayim Sanctuary today not where the Savior performs His works of forgiveness as He ministers before His Father on behalf of confessing sinners? Yes! Since this is true, and the earthly was patterned after the Sanctuary above that was not made with hands, would it not also be true that it is still regulated by the same rhythm of the Creator's celestial clock/calendar? Yes!

With this said, there is an additional point to consider regarding "temple" time-keeping, which was used to call His people for assembly to worship Him. There has never been a time in the recorded Scripture that the loving Father did not require the wilderness Sanctuary or the other Temples to be orchestrated by the time mechanism in the shamayim for each and every phase of Temple service, however small. So, what time keeping was to be followed by each person's soul temple?

Or do you not know that your body is the temple of the Ruach (Spirit) who is in you, whom you have from Yahuah, and you are not your own? For you were bought at a price; therefore honor Yahuah in your body and in your soul, which are Yahuah's. 1 Corinthians 6:19-20 NKJV

It appears that folks were to understand that their bodies were designed to be temples of the Yahuah's Ruach (*Spirit*). They were to honor their Father in their bodies, in and by their love and dutiful obedience. The Father was to continue to receive worship, from these human soul temples all the way into eternity.

The question remains, upon which time-keeping system were they to do this? Did it matter? Were they welcome to utilize the rhythms of pagan calendation to worship the Creator of the sun, moon, and stars? No! It is said of our Almighty Father that He is consistent and changes not. Therefore, would it not be true that whatever time system was given for the wilderness Sanctuary as well as each of the Temples was also the same that was to be required of each obedient follower? These would be seeking to be in harmony with all the divine laws and appointed times of worship, ever seeking to "*follow the lamb*"

whithersoever he goes.” Are not all the Lamb’s movements according to His prophetic and preordained time clock? According to Scripture, Yes!

*Unfamiliar is no more synonymous with wrong
than familiar is synonymous with right.*

In Conclusion:

Shocking as these concepts may first appear to be, those who truly desire to know the truth, must check it out for themselves, “laying at the door of investigation all preconceived ideas.” If knowing the truth is vital; if obediently keeping the Father, Yahuah’s true and sacred seventh-day Sabbath is imperative, then please take the time to prayerfully read for yourself the articles with support details from Scripture.

And they that shall be of thee, shall build the old waste places: thou shalt raise up the foundations of many generations; and thou shalt be called, the repairer of the breach, the restorer of paths to dwell in. Isaiah 58:12

Enter by the narrow gate; for wide is the gate and broad is the way that leads to destruction, and there are many who go in by it. Because narrow is the gate and difficult is the way which leads to life, and there are few who find it. Matthew 7:13-14
