

Happy New Moon Day of the Eighth Lunar Month!

Last night we had a 3.5-hour lunar eclipse. It was the longest lunar eclipse in 580 years. Might this lengthy lunar eclipse reveal a long-lost reality, that a 3-hour solar eclipse is indeed possible? Why might this be an important question to consider? Because the Bible tells us in Luke 23:44-45 that the SUN was DARKENED (solar eclipse) from the sixth to the ninth hour the day Yahusha our Messiah hung on the cross and died for you and me.

Eight hundred years prior to the Messiah's death, the prophet Amos (Amos 8:9-11) prophesied that there would be a solar eclipse on the day of our Messiah's death, which was coincident with Passover the 14th of the lunar month. So what might this mean? A solar eclipse on the 14th day of the lunar month identifies that the DARK LUNAR PHASE OCCURS IN THE MIDDLE OF THE LUNAR MONTH AND THAT THE FULL MOON IS THE START OF THE MONTH ACCORDING TO SCRIPTURE!!!

Is it possible that we were all given a false narrative for the last nearly 2,000 years? Who would be motivated to change the method of time-keeping for much of the world? The enemy of souls, and anyone who might desire to remove themselves far, far from the glaring spotlight of TRUTH. Both the Rabbinical Jews and the Romans needed to remove themselves from all connection to the Messiah's crucifixion, and changing their methods of time-measuring seemed a logical solution.

For the past 1,700 years, both groups have achieved their goal. The Romans no longer utilize the moon for time-keeping except for locating Easter to insure it never intercepts Passover. On the other hand, the Jews start their months on a dark lunar phase or crescent but have discarded the counting from the moon for their Sabbaths, utilizing instead the Roman continuous weekly cycle. So it is that today, both pre-eminent time-measuring examples are utterly flawed as compared to Scripture.

This reveal provides you an opportunity to restore the ancient Biblical Calendar that begins with the New Year in spring, and its Months begin on the Full Moon, with all Sabbaths and annual lunar appointed Feast Days being counted from the Full Moon. How awesome is our Creator! And how blessed are we to hear the call to COME OUT OF BABYLON (false teachings) and return to the governmental LAW of the MOST HIGH in preparation for His SECOND COMING!!! HalleluYAH!!!

Discover in this Hebrew Study that the sun was darkened from the sixth to the ninth hour, fulfilling the ancient Amos 8 prophecy of a solar eclipse on the day of the Messiah's crucifixion. This celestial three-hour phenomenon, possibly magnified by Divine intervention, occurred during the dark conjunction lunar phase. By extension, the weighty evidence from this mid-month event portrays the original extraterrestrial New Moon to have always been the full moon fifteen days previous, at that epic appointed time nearly 2,000 years ago. . .
