The Fourth Day of Creation
The Introduction of Earth's Sun, Moon, and Stars

The purpose of this article is to shine a light on what really happened with regard to the development of TIME between the first and the fourth day of creation, when the earth, sun, moon, and stars were created, aligned, and each set in motion. To assist with this endeavor and for a broader perspective, additional books of Scripture have been utilized to pinpoint as a GPS unit, vital elements of TIME other than what is revealed in Genesis alone. By so doing, the vacant places of the puzzle are filled in, and the marvelous picture is revealed that was otherwise obscured. Together they declare as a harmonious symphony TIME'S SELF-EVIDENT TRUTHS. All this was the awe-inspiring work of our loving Eternal Father, Yahuah Alahim, together with His only begotten Son, Yahusha HaMashiach (the Messiah).

It is easy for each of us to believe that TIME was all worked out by those who have come before us, such as the Roman church fathers, modern Yahudim (Rabbinical Jews), and/or protestant denominational reformers and scholars, and that there is nothing new to discover. Yet, together, history and Scripture reveal that the Romans and Yahudim were instrumental in changing all their units of time in opposition to the standard of Scripture. "And he shall . . . think to change times and laws." Daniel 7:25.

Daniel 12:4 also tells us that at the "end of time, men shall run to and fro, and knowledge shall be increased." While some may believe this is referring to mass transit world travel and general high tech advances, I believe the real focus is on the development and expansion of computer tools that aid in Scripture study that in turn increase mankind's knowledge of the TRUTH. For today, we can gather and study a topic in moments that fifty and
one hundred years ago would have taken days, years, or even lifetimes. So it seems that the greatest truth and revealed knowledge may come as a kind of vetting test at the end of time to distinguish the wheat from the tares, the sheep from the goats. For truth has never yet been fully restored, nor time worked out until that soon coming reality when the Ruach haKadosh (power, presence, promise, and provision of Yahuah) declares it with His still, quiet voice. Only those who have eyes to see and ears to hear will be rewarded.
In the beginning, nothingness, emptiness, and darkness were upon the face of the endless abyss.

The first thing created was LIGHT, and the first thing named was DAY. For the LIGHT was called DAY and it was distinctly separated from the DARKNESS, which was called NIGHT.

Each creative act was accomplished during the DAY. Nothing was created in the DARKNESS of NIGHT.

Following each DAY of Creation was the EVENING and DAWN of the NIGHT. The DAY began fresh and new at each SUNRISE. Then came the EVENING and then came the DAWN, which are the first and last watches of the NIGHT.

The DAY was designed to begin at SUNRISE and end at SUNSET, containing no portion of DARKNESS or NIGHT. Only a 24 hour cycle of time includes both the DAY and NIGHT.
As a result of these facts, we can know that elements of truth still need to be restored. So it will be the aim of this article to bring together Scripture's revealed principles relating to the fourth day of creation for the purpose of restoring, yet another stone in the original Creator's Calendar and His dynamic layout of the first week of earth. *(Click on images to enlarge them.)*

---

**In the Beginning: Genesis 1 and the Sabbath, is there a relation to the New Moon?**

The following statement is from the Biblical Research Institute of the Seventh-day Adventist Church - specifically its chief officer at the time, Angel Rodriguez:

"The origin of Earth's Scriptural Sabbath definitely finds its birth in the creation week. It was instituted by God three days following the creation of the trinity of LIGHTS (sun, moon, and stars) according to (Gen. 1:14; 2:2), and not the seventh day after the first day of the month. It was to function independent of the month on a specific sequence of days unconnected from the moon and the sun, but uniquely grounded in *God's* power to rule over time. The *seventhness* of the Sabbath is related to the passing of time, from the beginning of *God's* creating activity on planet earth to its close. This is indeed a unique divine act, a fragmentation of time in a sequence of seven days exclusively fixed and governed by *God* Himself."

**Kerrie French’s Rebuttal and Response**

Contrary to this statement by Angel Rodriguez, no place can be found in all of Scripture that highlights the week as having a unique time-sequence all its own, fully divorced from the sun, moon or stars, and specifically from the lunar phases. The simple fact that because the Sabbath is identified in Genesis 1:14 as a SIGN, predetermines that it was designed and ordained to be signaled by the LIGHTS He placed in the shamayim (heavens), His trinity of sun, moon, and stars. To deny this is to contradict the foundational evidence specifically declared for all time-measuring by our Creator.

It is still more surprising that one so well educated as Angel Rodriguez, could stoop so low as to declare the seventh-day of the week, as defined in Genesis, as
designed to function with no ties to the BEGINNING OF THE MONTH, or for that matter to the BEGINNING OF THE YEAR, Rosh HaShanah. But it illustrates the depth and power that deep rooted traditions have over scholars, keeping them entrenched in false paradigms. Yet, Yahuah Alahim told Moses and Aaron specifically to count to the 14th day from the New Moon (first New Moon of the Year) for the placement of Passover. (Exodus 12:1-3).

"The NEW MOON, ‘this one’ is the beginning (**Rosh**) of the LUNAR MONTHS. It is FIRST IN ORDER according to the LUNAR MONTHS for the revolution of a year (**HaShanah**). You shall keep and teach this to all the congregation of Israel saying, “in the tenth of the LUNAR MONTH, do the following: And you shall reserve and keep every man a lamb for each household of the father, a lamb for each house. . . And you shall keep it up until the **fourteenth day** of the same LUNAR MONTH. . ." (Click on this link to view the Hebrew word study on this verse in Exodus 12:1-3)

By extension, and in EVERY case recorded in Scripture, the day following Passover the 14th is the seventh-day Sabbath as located on the 15th of the lunar month. This was the case as illustrated in the verse above for the first Passover, as well as at the crucifixion of our Messiah. For Passover was always the 14th day counted from the New Moon, and the 6th day of the lunar week, which was followed by the seventh-day Sabbath.

**All Scripture Dates Associated with the Seventh-day Sabbath**

Stunningly, every place in Scripture that a date can be associated with the seventh-day Sabbath, it consistently falls upon the 8th, 15th, 22nd, and 29th of a lunar month. In other words, every seventh-day Sabbath identified in Scripture is consistently counted from the New Moon.

Also, the very fact that Isaiah 66:22-23, Ezekiel 46:1-3, and Leviticus 23 exist, is evidence that even Yahuah Alahim utilized the New Moon "IN THE BEGINNING" of time on earth. It is a much more impressive and synchronized example of the start of all things than simply assuming that the day prior to the first day of creation was the seventh-day of a week cycle fully divorced from the very LIGHTS He was creating for SIGNS and SIGNALS of TIME.

Verified below, are **Twelve Scriptural Events** that identify the seventh-day Sabbaths are always located on the 8th, 15th, 22nd and 29th of the lunar month. No
Scripture references can be found that define the Sabbaths to be located on any other dates than these. Refer to article, *Sabbath’s Consistent Lunar Monthly Dates.*

- **Three months in a row – The Exodus, the Manna, and the Mountain.** Exodus 12, 16, 19. Refer to article, *“Three Months in a Row, The Exodus, The Manna, and the Mountain.”*
- **Spring and fall Feast days.** Leviticus 23:5-6, 34-35; Numbers 29:12-39.
- **Two annual Feast days and their respective high Sabbaths.** Refer to article, *Passover to Tabernacles Calendar Challenge* Leviticus 23:5-6, 34, 35; Numbers 29:12-39.
- **Dedication of priesthood of Aaron and his sons.** Exodus 40:2, 17; Leviticus 8, 9.
- **The time of Solomon.** 2 Chronicles 7:8-10.
- **The time of Esther.** Esther 9:18.
- **King Hezekiah’s reform.** Refer to article, *Ten Degrees To and Fro on the Sundial* 2 Chronicles 29:17.
- **Three kinds of days that never overlap.** Refer to article, *Worship at the East Gate* Ezekiel 46:1.
- **The 24 prophetic Kohern (Priestly) courses.** 1 Chronicles 9:25 and 2 Chronicles 23:8
- **Birth of the Messiah** - Refer to article, *Our Messiah's True Prophetic Birthday* Luke 1-2
- **Healing the blind man on the Sabbath, the 22nd of the Seventh Month.** John 8:2, John 9:6 compared to Leviticus 23:35-36.
- **Time of the Crucifixion.** Refer to article, *From the Sixth to the Ninth Hour* Mark 15:42; John 19:31; Leviticus 23:6-7, 11, 15; John 19:42.

At the end of the day, powerful men in high places of religious organizations will make every effort to keep the people locked into their blind paradigms for the sake of unity, as it keeps funds flowing into church coffers. So it seems that TRUTH has taken a back seat to peaceful conformity and a strong business model, a system opposed to the tenants of our returning Messiah.
Exodus 20:10 declares, “the seventh-day is the Sabbath of Yahuah your Alahim/Elohim.” Meaning, that our Creator shared “His Sabbath” of eternity past, present, and future with mankind. He did this so that earthlings may be in sync with the worship rhythms that had pre-existed earth, together with its messengers (angels), and unfallen worlds as they assemble on His pre-appointed sacred days. But in addition to Yahuah sharing His Sabbaths with mankind, He also imputed to earth the rhythm of His— lunar months and astro-luni-solar years via shamayim’ (heaven's) own New Moon time indicator.

So it is that TIME on earth was synchronized with Yahuah Alahim’s very throne room during the first week of its existence. This fact that the 7th day of Earth was sequenced harmoniously to the very throne room of our Creator, provides accurate accounting for all the other days. Specifically the first three numbered days that were identified with the boundary markers in Genesis 1 that detail "the 1st, 2nd, and 3rd day" with the phrase “and evening and morning,” before the sun, moon, and stars were created or time set.

The sun, moon, and stars were designed for LIGHTS, TIME, and HEAT, but they also are the very signature of our Creator and declared His MAJESTY. Each day of earth’s creation fell upon a work day of the Eternal Father, a unique cycle of time that had existed in eternity past. These six work days were sandwiched between His two sacred and set-apart days. While many assume that these were both seventh-day Sabbaths, it is impossible for the very reason that the ancient Hebrew YEAR, MONTH, WEEK, and DATES of each month were all tied to the NEW MOONS. So when Genesis 1:1 begins with those famous words, “IN THE BEGINNING” (בראשׁית), we can pinpoint exactly where we are in the YEAR, LUNAR MONTH, LUNAR WEEK, and the stunning lunar phase demarcation of DAYS.

This is no different than when finding the beginning of time on a clock, where both hands are pointing straight up at 12:00. In like manner, the first day of
the ancient Hebrew Year was also the first day of the lunar month. The four lunar weeks began the next day. This is precisely how our Creator did it. But because New Year’s Day was also the New Moon Day, it was set-apart as a REST DAY by our Creator for receiving corporate worship from all His created beings. This necessitated that He begin His work of earth's creation on the following day, the first day of HIS work week. This first day of the work week was also the second day of the 29-30 day lunar month.

Three Kinds of Days Each Month

Thus declares Yahuah Alahim, “THE GATE of the inner courtyard facing the east, is caused to be shut six days for work, but on the Sabbath daylight it is thrown open, and on the New Moon daylight it is thrown open. Ezekiel 46:1

Here in the book of Ezekiel we find a “thus says Yahuah” that He ordained three kinds of days each month, which are named and have a specific function. Notice below that the East Gate of the temple being opened or closed for worship actually defines that these days can never overlap, similar to a traffic signal. New Moon days and Sabbaths are both identified as worship days in contrast to work days. Each day is either a work day or a worship day and can never be both.

1) East Gate is SHUT six working days.
2) East Gate is OPEN on Sabbath days.
3) East Gate is OPEN on New Moon days.

Facts from Ezekiel 46:1
1. Genesis correctly reveals that two kinds of days make up the Scriptural week – work days and Sabbaths.
2. But Ezekiel 46:1, Leviticus 23:1-44, and Isaiah 66:23 identify that three kinds of days make up a Scriptural month – 1) Six work days; 2) Sabbaths; 3) New Moon days.
3. The East Gate is opened for worship on both New Moon days and Sabbaths.
4. The East Gate is shut on work days, signaling that these are not worship days.
5. Sabbath days and work days never overlap.
6. New Moon days and work days never overlap.
7. New Moon days can never be seventh-day Sabbaths because they are always the first day of the month and are not part of the week cycle or a seventh-day.
8. However, by its very existence, the New Moon day breaks the cycle of work days and Sabbath days each lunar month of 29 or 30 days.
9. It is impossible for the Creator’s weeks to have cycled without end since creation for the mere fact that there are three kinds of days each month and not just two, as all the world has “wondered after the beast” in believing.
10. Cycling weeks cannot remain unbroken for 6,000 years, 6 months, or 6 weeks, for the very reason that the New Moon day exists as a third kind of day.
11. Any week that is entirely severed from the three part orchestration of the sun, moon, and stars can neither stand as their ambassador nor as the sign of the Creator of the shamayim.

All of Yahuah’s units of time and sacred days are heralded by His LIGHTS, the grand time principles ruled by the shamayim. His true seventh-day Sabbath is born of this celestial timepiece, as it alone bares the signature of the Creator.
As a result, there are never more than six days in a row in which the Eternal Father is free to create earth or any other world. This is self-evident in Genesis 1 and in perfect harmony with Exodus 20:10.

It is easy to see why folks automatically assume that the first week of creation was sandwiched between two seventh-day Sabbaths, as "ALL THE WORLD" has been indoctrinated to believe the modern Roman week cycle has always existed and was in harmony with Scripture. But, this traditional view falls apart in the view of Leviticus 23, Ezekiel 46:1-3 and Isaiah 66:22-23, which identify that the New Moon Day is a Scriptural reality and preordained starting point that must be included in the hypothesis of counting TIME from creation to the crucifixion, and onward to modern times. And by so doing it is discovered that the New Moon Day is a third kind of day that for the mere fact of its existence, it breaks the cycle of weeks each lunar month.

**Umbilical Cord of the Birth of Time on Earth**

It is a great error to dismiss the direct phraseology of the creation account of the fourth day upon which it is specified that the sun, moon, stars were created. But it seems this directive is being ignored because well-meaning folks seek to find resolution to the comments from the opposition. The only answer that can both resolve what happened and meet the opposition with regard to the lunar week, and the criteria stipulated in Genesis 1:14-19, is to realize that those first three days of the creation week were hung as from an umbilical cord to the ETERNAL TIME of YAHUAH Alahim, the very THRONE ROOM of the MOST HIGH.

Earth’s sun, moon, and stars were not a necessary element for YAHUAH ALAHIM, His SON, the divine Messengers, or other worlds to know when to assemble for worship on the sacred seventh-day Sabbath. But how can this be?

It is because their systems were already in full operation and all in 100% UNITY. The very fact that EARTH’S SUN, MOON, and STARS were NOT created until the FOURTH DAY is the GREATEST TESTIMONY for not only EARTHLINGS (you and me), but also for the other CREATED WORLDS AND BEINGS TO KNOW THAT WE WERE ALSO CREATED TO BE IN PERFECT HARMONY WITH EACH OF THEM and received the exact same WORSHIP RHYTHM. This was a GRAND
HONOR OF "INCLUSION" that was profoundly illustrated by delaying the creation of earth's sun, moon, and stars until the 4th day.

Just like with the birth of a newborn baby, it comes into the world as a separate individual, yet it remains fully attached to its mother until the umbilical cord is cut. In the same way “IN THE BEGINNING” during the first three days of the creation process EARTH was a uniquely new creation, yet it remained FULLY DEPENDENT UPON ITS CREATOR'S ETERNAL PASSAGE OF TIME, until that moment on the FOURTH DAY, when the proverbial umbilical cord was cut. This marked the moment of the creation of EARTH'S LIGHTS in the shamayim (heavens). That was the day the sun, moon, and stars were created and made (asah H6213 - to make, to accomplish, fashion; prepare, to do, produce, appoint, ordain, institute).

It is in recognizing this marvelous evidence that we can fully understand that our Creator's GRAND ACCORD was broken when TIME was changed by degrees by witty calendar inventions over these last 6,000 years under the explicit direction of the adversary and enemy of souls, Hillel (SATAN otherwise referred to as Lucifer).

**Boundary Markers for Creation**

While our Creator is omnipotent, it is a known fact that there is one thing He cannot do. He cannot lie! However, it has been discovered that there is an additional thing that He cannot do, which is of great significance in establishing the parameters of His preordained calendar rhythms. Our Creator could not create earth's MOON, "His trustworthy witness in the sky (Psalms 89:37)," on the New Moon day, the day prior to the first day of creation. This is an impossibility for the sheer fact that the New Moon day is a sacred and set-apart worship day unto Yahuah and the entire universe, rendering it a “REST” day and not a work day. Our loving Creator is both consistent and He “changes not.” To create the moon, sun, stars, or even the earth on the New Moon day would be a sin, as it runs contrary to the Creator’s own laws of keeping kadosh (sacred) each of His appointed worship assemblies. According to Ezekiel 46:3, on the New Moon Day, as well as the seventh-day Sabbath, our Creator is resting and receiving worship from all His created beings, who are faithful to obey His single and unique calendar rhythm throughout the universe.

The calendar illustration below demonstrates what occurred during the creation week. On the full New Moon Day (blue one) the Creator could not have been
creating earth or anything relative to it, as He was both resting and receiving worship from the entire host of messengers (angels) and unfallen creations. Each of the Creator’s six work days are identified (in green). According to the combined evidence in Scripture, the first day of creation with respect to earth was **the second day of His lunar month and year**, the truths of which He was soon to share with Adam and Havah (Eve), in a few short days.

---

**The Fourth Day of the Creation Week**

It is hard for mankind to fathom that from the Creator’s perspective, time was ongoing, while earth’s time had only just begun. Yet, consistently, the 8th day of the lunar month on earth (in gold) was the first seventh-day Sabbath of His year and lunar month. **It was the eternal continuum of the lunar month and lunar seventh-day Sabbath of Yahuah’s, past, present, and future.** Here again He would be resting and receiving worship from all His creation, but now for the first time earthlings were to be included in one of the Creator’s corporate days of rest and worship, His preordained SIGN of UNIVERSAL UNITY. Thus, **ALL His perfect creations were united according to His celestial TIME-MEASURING rhythm, with each of the sun, moon, and stars set and**
numbered from their proper syzygy (alignment of three or more spheres, as in the sun, earth, moon, starry constellations) positions relative to the earth.

The syzygy order defines which lunar phase is the true New Moon as defined in Genesis 1:16: 1) the SUN; 2) the EARTH; 3) the MOON; and the STARS. Only this alignment identifies the lunar phase that rules in opposition to the sun by night (Genesis 1:16). The only lunar phase in opposition to the sun beginning at sunset is the FULL MOON. And then this FULL MOON is to rule together with a specific starry constellation all night and for the duration of one lunation (one lunar month). When the next full New Moon appears, it distinguishes one lunar month from the next for all 12 or 13. No other arrangement can meet all the Scriptural criteria for YEARS, LUNAR MONTHS, WEEKS, and 29-30 DAYS.

**Synchronizing Earth's Clock/Calendar**

The fact that the sun, moon, and stars were created on the fourth day of the creation week was a most important and dramatic “SIGN” to mankind of a unique FACT. This was that *earth’s “TIME” was not independent from that of YAHUAH Alahim/Elohim's seat of power*. Rather, earth’s “TIME” was hung from the very portals of Yahuah’s seat of power, His ETERNAL TIME CONTINUUM.

Just as the *tree of life* was placed in the garden fully endowed with fruit on the third day, so too, all of creation was created in its complete form with apparent age. Nothing was created as seeds, eggs, or babies. Likewise, on the fourth day the celestial bodies were created and placed in their precise, and advanced upon positions in the shamayim (heavens), reflecting by these positions, the passage of the first three recorded days of creation, and also of the New Moon Day that preceded them.

As a result, the start of earth’s first year, lunar month, lunar week, and lunar day were set, as a clock would be, according to YAHUAH'S very seat of power and His full New Moon. Earth was never intended to operate on an independent time-measuring sub-system wholly detached from that of the entire universe, or its Creator. **This was the missing puzzle piece in the Genesis account of the first week.**

Still many have proclaimed that the New Moon Day occurred upon the fourth day of creation, primarily because they continue to believe and honor the Roman
continuous weekly cycle that allows for the New Moon Day to occur on any day of the modern Gregorian solar month. Yet, Yahuah's time-measuring model places New Moon Day consistently as DAY ONE of His lunar months. It was **Yahuah’s New Moon** that set the count for years, months, weeks, and days upon the earth, yet worked seamlessly together with the sun, and stars to accurately signal all smaller units of time. It is only with this additional New Moon Day piece of evidence that Genesis can be harmonized with the remainder of the Scriptures.

The *syzygy* alignment above depicts New Year’s Day, the first New Moon of the year.

This illustration above depicts the placement of the moon on the 4th day of Creation, as it would appear showing the passing of the sacred New Moon Day, followed by each of the work days of creation.
This illustration depicts the placement of the moon for the four days after it was created. No creative works were performed on the New Moon Day, but commenced on the first work day. But the New Moon Day still marked the first day of the year and month, which causes the seventh-day Sabbath to also be the 8th day of the lunar month and year.

Earth’s sun, moon, and stars were not created nor their time set and placed in their celestial positions until the fourth day. This was to be an EVERLASTING TESTIMONY that “TIME” upon earth was designed after the pattern of, and synchronized with the Yahuah’s very seat of power. So while His time-system is earth’s benefactor, it is those who are obedient to its principles that remain the beneficiaries.

**Testimony of Two Witnesses**

If Genesis 1 was all that was recorded for mankind to measure time, a multiplicity of opposing calendar models might be considered acceptable. But this is not the case! For we have it on good authority that not only did the New Moon Day exist, but it is mentioned more than twice as often in Scripture than that of the seventh-day Sabbath. The New Moon Days were set forth as sacred worship days by the same Creator who rested on the seventh-day Sabbath. It was pre-ordained as the BEGINNING of His YEARS, MONTHS, WEEKS, and DAYS. And from this day all sacred days were counted.

In fact, the New Moon Day is referred to more than 300 times in the pages of Scripture. Compare this to the 150 times the seventh-day Sabbath is mentioned. Yet, who on earth keeps such a time counting system today that includes worship upon New Moon Days and Lunar seventh-day Sabbaths? Can
you fathom yet that ALL THE WORLD has fallen victim to a stupendous calendar swap, an entire replacement of TIME, and didn't know it? Simply, because your current calendar paradigm, created by Roman Emperors, was given the stamp of approval by the Pope, later the Jewish leaders, still later the misguided Reformers and Pastors, and still later, a presumed modern prophetess who bought into the lie, DOES NOT MEAN IT CARRIES ONE SPECK OF TRUTH. This kind of discovery can only be found when in humble submission to the Eternal Father, there is a willingness to unravel the lies, as one trusts Yahuah Alahim to lead him/her into all TRUTH, and NOT the traditions and commandments of men.

"Thus declares the Almighty Yahuah, 'the GATE of the courtyard interior facing the EAST shall be SHUT six days for work, and in the day of the SABBATH it shall be thrown open wide, and in the day of the NEW MOON it shall be thrown open wide. But come unto the exalted one, by way of the porch of the temple gate from without, and stand beside the doorpost of the gate and observe the Kohenim’s (Priests) symbolic Aleph and Tav burnt offering and symbolic Aleph and Tav peace offering. And you shall prostrate in worship upon the threshold of the open gate, coming and going at any time, but the gate shall not be shut until sunset.” And thus worshiped the people of the land at the entrance way of the same gate in the SABBATHS and in the NEW MOON DAYS before the face of Yahuah."'' YAHchezq’EL (Ezekiel) 46:1-3 Link to Hebrew Word Study -- Worship at the East Gate

“Assuredly, according to the shamayim (starry abode), the New Moons, and the earth: The New Moon that I appointed and set in this ORDER remains firmly the chief corner [stone],” declares Yahuah. "Wherefore, it establishes and confirms your name along with your children. And it shall come to pass according to its abundance— New Moon by New Moon you shall keep; and according to its abundance— Sabbath by Sabbath you shall keep. And I shall lead all flesh to prostrate in worship, according to this chief corner [stone],” declares Yahuah. YashaYAHU (Isaiah) 66:22-23 The Creator’s Calendar Restored Hebrew Text. Link to Hebrew Word Study -- New Moon by New Moon You Shall Keep
There is no getting around the importance that the Eternal Father places upon His sacred New Moon days and lunar seventh-day Sabbaths. While His New Moon day marks the harmonious commencement of each lunar month, the moon also demarcates with a unique lunar phase each day count from 1-29 or 30. Yet stunningly, it starts the count of four lunar weeks with their seventh-day Sabbaths, and regulates 12 months within a regular year, and a 13th month every two or three years. Never is it out of sync with His preordained design as every 18.6 years the lunar cycles bring the years back into perfect harmony with the solar year. Every unit of our Creator's original time-measuring model is a division of the larger unit. Try as one might, it is only through the avenue of fraud that the Creator’s true Sabbaths will appear to be located by any other method.

**Those with Seventh-day Adventist Backgrounds**

For those with Adventist roots, below was the once S.D.A. view according to the perceived prophetess Ellen White, who identified **suns, stars and systems all circling the seat of Yahuah’s authority**. Does this quote appear to imply that “TIME” above also consists of the same celestial type time markers? Does this not provide evidence that even the early Adventists once considered that earth’s celestial bodies were patterned after that of the very throne of their Creator? Were these not specifically placed for the purpose of governing earth's appointed worship assembly times of their loving Maker and sustainer? Would this not be the Creator’s system, like synchronized watches, beckoning His many creations to come and worship before Him upon His set-apart sacred days? Yet, although she made this statement, there is no reason to believe she understood
it, as she did not keep any calendar model other than the Roman Beast power
time-measuring system.

With undimmed vision they gaze upon the glory of creation: suns and stars and
systems, all in their appointed order circling the throne of Deity. Great

**Conclusion**

Mankind has been honored by their loving Eternal Father above as He gave us
the same time-measuring system that utilizes the sun, moon and stars in like
manner as in the courts above. They are fully synchronized and nothing is
different. There are no wall calendars in the New Yarushalom (Jerusalem)
designating when to come before the Eternal’s throne to worship. All the
unfallen worlds in their perfection would naturally also have suns, moons, and
stars that keep the exact same time system, to synchronize all His true followers.
All are in perfect harmony, even better than a Swiss watch. For earth was
designed as the center-piece gear set within the grandest clock/calendar ever
conceived by man. Its sun, moon, and stars, operate on invisible gears as the
great HANDS OF TIME, and fully visible to all the world when they are ruling.

This GRAND clock/calendar mechanism is our Creator's ever present symbol
that He not only exists, but is present and intimately and lovingly involved with
the concerns of mankind. So when Scripture’s record sends forth the message
that His only Son, YAHUSHA haMashiach (the Messiah) shall come, and did
come as the LAMB slain to take away your confessed sins and restore you, IT
IS BOTH TRUE, AND OCCURRED EXACTLY ON TIME! You can set your
clock to it, literally! For all prophecy is born out according to the precision of
the TORAH (LAW) FEAST DAYS, and identify salvation's TIME and EVENT
mechanism, provided by the Messiah alone in the temple not made with human
hands.

Could it be the result of the rebelliousness of man’s hearts that earthlings have
crafted several opposing calendar models based upon differing principles,
causing them to worship another, i.e. Satan, on days they know not what? May
our Creator, both Father and Son have compassion upon us all as we seek to
discover and restore His kadosh (sacred) timepiece.

No matter which of the replacement time-measuring systems you were raised
following or that your church or synagogue leaders compelled you to believe
was the original, all have been deceived. But by the compassionate love of our Creator He is calling all His would be obedient followers to take this end-time and final opportunity to be synchronized to Him via His pre-ordained full New Moon and astro-luni-solar calendar model to locate His true Sabbaths, and prophetic sacred Feast Days.

Yahuah Alahim is calling his obedient followers to restore His original calendar, that they may synchronize their soul temples in preparation for His soon return. Until time runs out, every passing minute is another chance to turn it all around.

"There are two ways to be fooled.  
One is to believe what isn't true;  
The other is to refuse to accept what is true.
Yet the TRUTH is found in what holds the greatest weight of evidence."

**Summary of Evidence**

- Twelve Scriptural stories identify that ALL seventh-day Sabbaths fell consistently on the lunar dates of the 8th, 15th, 22nd and 29th.
- Earth’s time system is a synchronized COPY of the time-model at the throne of Yahuah Alahim, and is not the original.
- It is impossible for the Creator to create the full New Moon on New Moon Day.
- Our Creator can only create during six work days.
- Our Creator must always REST on New Moon days and seventh-day Sabbaths because they were set-apart as kadosh (holy). (Ezekiel 46:1-3)
- In addition to the Sabbath, our Creator shared His full New Moon with mankind.
- The New Moon Day is mentioned twice as often in Scripture than the seventh-day Sabbath.
- The New Moon Day is identified as a most sacred day of worship of our CREATOR. Isaiah 66:22-23; Ezekiel 46:1-3
- Earth was designed as the center-piece gear in the grandest clock/calendar ever conceived by man. Its sun, moon, and stars,
operate on invisible gears as the great HANDS OF TIME, and were
designed to be fully visible to all the world when they are ruling.
- Earth’s first week and month were set and hung from YAHUAH
  Alahim’s throne room clock/calendar.
- S.D.A.’s once believed and taught that, “Through all eternity, the
  saints will witness the suns, stars and systems circling the throne of
- Yahuah Alahim is calling his obedient followers to restore His
  original calendar, that they may synchronize their soul temples in
  preparation for His soon return.
