

## Exodus 19:1-2 - The Third Month in a Row - The Mountain

Commencing the Third Month, on the precise anniversary of the Exodus from Egypt at night, Israel was led by the pillar of fire by night, to the foot of Mt. Sinai. It was in the Third Month on the very same *lunar calendar date* of the 15th, after the sacred Sabbath hours were passed (*Deuteronomy 16:1; Numbers 33:3; Exodus 19:1-2*). So it is divinely demonstrated that **for three lunar months in a row, the Sabbath was located on the same consistent *lunar calendar dates*.**

**NEWS FLASH!** It is never possible to achieve three identical months-in-a-row when utilizing the Roman Gregorian calendar, which all the world currently uses to identify their worship days.

In striking contrast to our modern calendar, all the Creator's units of time were then as well as today, proclaimed by the three-part orchestration of the sun, moon, and stars (Genesis 1:14-18). This third month in a row was laid out identical to the previous two months with the seventh-day Sabbaths falling consistently upon the 8<sup>th</sup>, 15<sup>th</sup>, 22<sup>nd</sup>, and 29<sup>th</sup> of the lunar month.
